## **Voting of Proxies**

### *Registered Shareholders*

If your Shares are registered directly in your name with the Company’s transfer agent, TSX Trust Company, you are considered, with respect to those Shares, a registered Shareholder. The Notice and Access Package has been sent directly to you on the Company’s behalf at the address on file with TSX Trust Company. The Company has engaged the TSX Trust Company, to handle the setup, mailing and tabulation of proxies in relation to the Meeting.

### *Non-Registered Shareholders*

If your Shares are held in “street name” through a broker, bank or other nominee (such as CDS & Co.), you are considered a non-registered Shareholder. The Notice and Access Package has been forwarded, if requested, to you by your broker, bank or other holder of record who is considered, with respect to those Shares, the registered Shareholder. As a non-registered Shareholder, you have the right to direct your broker, bank or other holder of record on how to vote your Shares by using the voting instruction form included in the Notice and Access Package or as otherwise provided to you by your broker, bank, or other nominee.

### *Appointment and Revocability of Proxies*

**IF YOU RETURN A SIGNED FORM OF PROXY OR VOTING INSTRUCTION FORM WITHOUT INDICATING YOUR VOTE, YOUR SHARES WILL BE VOTED “FOR” EACH OF THE MATTERS PUT FORTH AT THE MEETING.**

The grant of a proxy on the enclosed form of proxy or voting instruction form does not preclude a Shareholder from voting in person. A Shareholder may revoke a proxy at any time prior to your proxy being voted: (i) by delivering to the Company’s President and Chief Executive Officer, prior to the Meeting, a written notice of revocation bearing a later date or time than the proxy; (ii) by timely delivery of a valid, later dated proxy; or (iii) by attending the Meeting

and voting in person. Attendance at the Meeting will not by itself constitute revocation of a proxy. If an adjournment occurs, it will have no effect on the ability of registered Shareholders as of the record date to exercise their voting rights or to revoke any previously delivered proxies. We do not expect to adjourn the Meeting for a period of time long enough to require the setting of a new record date.

### **Solicitation Costs**

The Company will pay the cost of solicitation of proxies on behalf of the Board. In addition to mail, proxy solicitation may be made through other means, including by telephone, facsimile, electronically, and personal interview by our officers, directors and employees.

Forward-looking statements are not guarantees of future performance. They are based on current expectations that involve a number of risks, uncertainties and assumptions that could cause our future results to differ materially from those expressed in any forward-looking statements. The assumptions underlying our forward-looking statements are based on judgments with respect to a number of factors that are difficult or impossible to predict accurately, and many of which are beyond our control. Accordingly, although we believe that the assumptions underlying the forward-looking statements are reasonable, any such assumption could prove to be inaccurate and therefore there can be no assurance that the results contemplated in forward-looking statements will be realized.

Important factors that may cause our actual results to differ from our forward-looking statements include, but are not limited to, the timing of the completion of any share consolidation (“**Share Consolidation**”) at the sole discretion of the Board and the risks outlined in the annual information form of the Company dated September 30, 2019 (the “**Annual Information Form**”) as well as risks discussed elsewhere in this Circular.

In light of the significant uncertainties inherent in our forward-looking statements, there can be no assurance that the forward-looking statements contained in this Circular will in fact occur, and the inclusion of such forward-looking statements in this Circular should not be construed as a representation by us or any other person that our predicted or expected outcomes will be achieved. You should carefully consider the risks disclosed in this Circular and in the Annual Information Form before deciding how to vote.

Additionally, you are cautioned that our Company does not have a policy of updating or revising forward-looking statements, other than in compliance with applicable securities laws, and thus, you should not assume that silence by our management over time means that actual events are bearing out as estimated in such forward-looking statements.

### General Information About the Share Consolidation

At the annual and special meeting of our Shareholders held on December 4, 2018, Shareholders approved a Share Consolidation on materially the same terms as stated herein. The previously passed resolution granted the Board the discretion to implement the Share Consolidation for a period of one year.

Over the course of the previous year, the Board considered the timing for implementing the Share Consolidation, however, as a result of market conditions, determined that it was in the Company's best interest not to implement the Share Consolidation. The Board will continue to monitor market conditions to determine the appropriate time to implement the Share Consolidation, however, the previously-approved Share Consolidation may not be completed prior to the one-year anniversary of the date the previous resolution was passed. Accordingly, you are being asked to approve the Share Consolidation again at the Meeting.

The Board has determined that it is advisable and in the Company's and the Shareholders' best interests to restructure the Company's capital and has directed the proposal in respect of the Share Consolidation be submitted to Shareholders to authorize the Board, in its sole discretion, to effect a Share Consolidation (or reverse stock split), at an exchange ratio of not less than 1-for-5 and not greater than 1-for-10 (the "**Exchange Ratio**"), as shall be determined in the sole discretion of the Board, on the terms described in this Circular. A more detailed discussion of the Share Consolidation is presented below.

The Board's primary objective in seeking authority to effect a Share Consolidation is to increase the per-Share trading price of the Shares. The Board believes that the low market price of the Shares impairs the Company's marketability and acceptance by institutional investors and other members of the investing public and creates a negative impression of the Company. Theoretically, decreasing the number of Shares outstanding should not, by itself, affect the marketability of the Shares, the type of investor who would be interested in acquiring them, or the Company's reputation in the financial community. In practice, however, many investors and market makers consider low-priced shares as unduly speculative in nature and, as a matter of policy, avoid investment and trading in such shares. The presence of these negative perceptions may adversely affect not only the pricing of the Shares but also the trading liquidity. In addition, these perceptions may affect the Company's commercial business and the Company's ability to raise additional capital through equity and debt financings. The Board will determine whether to effect a Share Consolidation and, if so, pursuant to which Exchange Ratio, based upon a number of market and business factors deemed relevant by the Board at that time, including, but not limited to:

- (i) historical trading price and volumes of the Shares;
- (ii) existing marketability and liquidity of the Shares and the expected impact of a Share Consolidation on the trading market, including the anticipated post-split market price, for the Shares;
- (iii) potential business and strategic alternatives, if any, that are available to the Company at that time; and
- (iv) stock market and economic conditions.

If the Board elects to effect a Share Consolidation, the Company shall issue a press release announcing the terms, Exchange Ratio and effective date of the Share Consolidation before the Company files an amendment to the articles of continuance with the authorities that administer the CBCA.

The following table contains examples of approximate information, as of October 23, 2019, relating to the impact of the Share Consolidation on the Shares based on certain of the Exchange Ratios available for selection by the Board, without giving effect to any adjustments for fractional Shares:

Status	Number of Shares Issued and Outstanding (1)	Number of Shares Reserved for Future Issuance (2)	Total Number of Shares Fully Diluted
<b>Pre-Consolidation</b>	<b>507,417,021</b>	<b>50,172,636</b>	<b>557,589,657</b>

Post-Consolidation 1:5 ratio	101,483,404	10,034,527	111,517,931
Post-Consolidation 1:6 ratio	84,569,504	8,362,106	92,931,610
Post-Consolidation 1:7 ratio	72,488,146	7,167,519	79,655,665
Post-Consolidation 1:8 ratio	63,427,128	6,271,580	69,698,707
Post-Consolidation 1:9 ratio	56,379,669	5,574,737	61,954,406
Post-Consolidation 1:10 ratio	50,741,702	5,017,264	55,758,966

- (1) Number of Shares Issued and Outstanding does not take into account the treatment of any fractional Shares. See “Treatment of fractional shares.”
- (2) Shares reserved for issuance pursuant to outstanding Options and Warrants.

Upon implementation of the Share Consolidation, the number of Shares that are issued and outstanding would immediately and automatically be reduced, as of the effective date of the Share Consolidation, by a factor equal to the Exchange Ratio and the number of Shares subject to outstanding stock options granted by Company (“**Options**”) and common share purchase warrants issued by the Company (“**Warrants**”) would be reduced proportionately and the respective exercise prices would be increased proportionately.

For example, on October 23, 2019, there were 507,417,021 Shares issued and outstanding and 50,172,636 Shares reserved for issuance pursuant to outstanding Options and Warrants resulting in 557,589,657 Shares on a fully diluted basis. If the Exchange Ratio selected by the Board is 1-for-5, after the Share Consolidation, there would be 101,483,404 Shares issued and outstanding and 10,034,527 Shares reserved for issuance pursuant to outstanding Options and Warrants resulting in 111,517,931 Shares on a fully diluted basis.

A Share Consolidation would affect all Shareholders uniformly and would have no effect on the proportionate holdings of any individual Shareholder, with the exception of adjustments related to the treatment of fractional Shares (as described below).

### **Additional Information About the Share Consolidation**

#### **Potential Benefits of the Share Consolidation**

In addition to an increase in the number of authorized and unissued Shares that would result from implementing a Share Consolidation, there are other considerations affecting the Board’s decision to seek approval from Shareholders to effect a Share Consolidation:

##### *Increased Share Price*

If the Board determines to implement a Share Consolidation, the price per Share would increase, at least initially, which could return the Share price to a more favorable level. An increase in the per-Share cost of the Shares should enhance the acceptability and marketability of the Shares to the financial community and investing public. Many institutional investors have policies prohibiting them from holding lower-priced shares in their portfolios, which reduces the number of potential buyers for the Shares. If the Shares traded at a higher price, the Company could potentially meet investing guidelines of institutional investors and investment funds who do not currently consider the Shares to be an eligible investment.

Moreover, advisors and analysts at many broker-dealers are reluctant to recommend lower-priced shares and do not as a practice follow the trading activity of lower-priced shares, or if they do follow lower-priced shares frequently require additional monitoring activities.

Increasing the Company’s Share price may make it easier for individual brokers to recommend the Shares, which could generate increased interest in the Shares. If the Company were to generate increased interest in the Shares, the Company anticipates that the Shares potentially would have greater liquidity. However, there can be no assurance that a Share Consolidation would result in any increased interest in the Shares, or that the Shares would achieve a price level that would meet investing guidelines of institutional investors who have not considered investing in the Shares.

##### *Reduced Trading Expense*

As investors tend to pay commissions based on the number of shares traded, commissions on lower-priced shares generally represent a higher percentage of the share price than commissions on higher-priced shares. As a result, investors in lower-priced shares pay transaction costs which are a higher percentage of their total value, which may limit interest in the Shares. If the Company were successful in raising the price per Share, the Company's investors could potentially incur lower transaction costs in trading the Shares, although Shareholders who hold odd-lot positions (less than 100 Shares) after a Share Consolidation could experience increased transaction costs in selling their Shares.

## **Effects of the Share Consolidation**

### *Effect of a Share Consolidation on the Company's outstanding Shares*

A Share Consolidation will be effective immediately and without further action by Shareholders upon the filing of an amendment to the Company's articles of continuance. Individual Shareholders will own fewer Shares after a Share Consolidation, equal to the number of Shares owned prior to the Share Consolidation divided by the Exchange Ratio selected by the Board, subject to the Company's treatment of fractional Shares. A Share Consolidation will not change the number of Shareholders of record, although it may increase the number of Shareholders holding odd-lot positions in the Shares. Following a Share Consolidation, all Shares will remain fully paid and non-assessable.

Following a Share Consolidation, the value of the Shares as designated on the Company's consolidated balance sheet will be decreased proportionately based on the Exchange Ratio with a corresponding increase in additional paid-in capital. "Earnings per share" would increase proportionately as a result of the Share Consolidation since there would be fewer Shares outstanding. In future financial statements, "earnings per share" for periods ending before the Share Consolidation would be recast to give retroactive effect to the Share Consolidation. The Company does not anticipate any other material accounting consequence would arise as a result of the Share Consolidation.

As Shareholders have no pre-emptive rights to purchase or subscribe for any Shares, the future issuance of additional Shares will reduce the Company's current Shareholders' percentage ownership interest in the total outstanding Shares. An increase in the number of issued and outstanding Shares in the absence of a proportionate increase in the Company's future earnings and book value would dilute the Company's projected future earnings per share, if any, and book value per share of all outstanding Shares. If these factors were reflected in the price per share of the Shares, the potential realizable value of a Shareholder's investment could be adversely affected.

While the potential effects of a Share Consolidation are expected to be similar prior to and after giving effect to the Redomicile, contemplated changes in the Company's capital structure in connection with the Redomicile will lead to certain effects being realized if a Share Consolidation is completed prior to giving effect to the Redomicile that will not be present if a Share Consolidation is completed prior to giving effect to the Redomicile.

### *Treatment of fractional Shares*

No fractional Shares will be issued as a result of the Share Consolidation. Shareholders who otherwise would be entitled to receive a fractional Share because they hold a number of Shares not evenly divisible by the Exchange Ratio selected by the Board will automatically be entitled to receive an additional fraction of a Share to round up to the next whole Share.

### *Effect of the Share Consolidation on Options and Warrants*

The number of Shares subject to outstanding Options and Warrants will automatically be adjusted by a factor equal to the Exchange Ratio applied for the Share Consolidation and in accordance with their terms.

### *No dissenters' or appraisal rights*

Under CBCA, Shareholders are not entitled to dissenters' or appraisal rights in connection with the proposed amendment to the Company's articles of continuance to implement the Share Consolidation. If the Company implements the Share Consolidation, the Company will not independently make such rights available to the Company's Shareholders.

## **Interests of Directors and Executive Officers in the Share Consolidation**

The Company's directors and executive officers, and their associates, have no substantial interest, directly or indirectly, in the matters set forth in the Share Consolidation proposal except to the extent of their ownership of Shares or Options.

### **Procedures to Implement the Share Consolidation**

The Share Consolidation will occur on the date that the amendment to the Company's articles of continuance effecting the Share Consolidation is filed with the authorities that administer the CBCA, unless otherwise specified in such amendment, without any action on the part of the Shareholders and without regard to the date that any share certificates representing the Shares prior to the Share Consolidation are physically surrendered for new share certificates.

#### *Exchange of book-entry Shares*

If the Board implements the Share Consolidation, Shareholders whose Shares are uncertificated and held in "street name" with a broker, as non-registered Shareholders, will have their holdings electronically adjusted by their brokers to give effect to the Share Consolidation.

#### *Exchange of Shares held in certificate form*

**SHAREHOLDERS SHOULD NOT DESTROY ANY SHARE CERTIFICATES AND SHOULD NOT SUBMIT THEIR SHARE CERTIFICATES UNTIL THEY RECEIVE A LETTER OF TRANSMITTAL FROM THE COMPANY'S TRANSFER AGENT.**

As soon as practicable after the effective date, the Company's transfer agent, acting as exchange agent, will mail to each registered Shareholder whose Shares are held in certificate form a letter of transmittal to be used in forwarding their share certificates for surrender and exchange for the whole number of new Shares that such Shareholder is entitled to receive as a result of the Share Consolidation. No new share certificates will be issued to a Shareholder until the Shareholder has surrendered their outstanding share certificate(s) together with the properly completed and executed letter of transmittal.

### **Certain Risks Related to the Share Consolidation**

**If a Share Consolidation is effected, there is no assurance that the Company's market price will remain above \$0.25, and the total value of the Company's outstanding shares may decline.**

If the Board determines that a Share Consolidation is in the best interests of the Company and Shareholders, the Board will set the Exchange Ratio with the intent of raising the price per Share above \$0.25. However, there is no assurance that after the Share Consolidation is completed, the Shares will maintain its Share Consolidation adjusted price. As a result, the Company's Share price could trade below the \$0.25 price. Moreover, a decline in the market price of the Shares after a Share Consolidation may result in a greater percentage decline than would occur in the absence of a Share Consolidation.

Similarly, the total value of the Company's outstanding Shares (market capitalization) immediately after a Share Consolidation may be lower than immediately before a Share Consolidation, and/or the total market capitalization may decline. If trading activity following a Share Consolidation has the effect of reducing the total market capitalization of the Company, the Company may be unable to fund the Company's activities, resulting in reductions in Shareholders' equity.

There are numerous risks and uncertainties that could affect the value of the Shares after a Share Consolidation including without limitation risks and uncertainties related directly to the Company, including, without limitation, the status of the Company's development programs, the Company's cash position and results of operations in future periods, and the Company's ability to attract and retain key executive management and professional personnel, as well as other factors such as market conditions as a whole and the general economic environment. Even though a Share Consolidation would not directly impact the Company's capital, cash position, or the number of Shareholders, there may be share-consolidation-related trading activity that may have the effect of depressing the market price of the Shares and the Company's market capitalization. For these reasons, if the Board implements a Share Consolidation, the market price of the Shares will likely not be sustainable at the arithmetic result obtained by applying the Exchange Ratio of the Share Consolidation by the market price of the Shares immediately prior to the effective date of the Share Consolidation, and the percentage decline in the Company's market value may be greater than would occur in the absence of a Share Consolidation. If the market price of the Shares declines after the Share Consolidation, the

Company's total market capitalization (the aggregate value of all of the Company's outstanding Shares at the then existing market price) after the Share Consolidation will be lower than before the Share Consolidation.

**A Share Consolidation may reduce liquidity and increase volatility of the Shares.**

Following a Share Consolidation, the number of Shares available for trading in the public market will be reduced by a factor equal to the Exchange Ratio. This reduction in Shares could result in depressed trading activity, fewer market makers and less interest in the Shares. This could result in increased volatility and adversely affect liquidity of the Shares.

In addition, investors might consider the increased proportion of unissued authorized Shares to issued Shares to have an anti-takeover effect under certain circumstances, since the proportion allows for dilutive issuances that could prevent certain Shareholders from changing the composition of the Board or render tender offers for a combination with another entity more difficult to successfully complete. The Board does not intend for the Share Consolidation to have any anti-takeover effects

**Recommendation**

*The Board recommends that Shareholders vote "FOR" the approval of the Share Consolidation and amending the articles of continuance of the Company to effect the Share Consolidation at the discretion of the Board as outlined above.*

**Share Consolidation Resolution**

The special resolution approving the Share Consolidation (the "**Share Consolidation Resolution**") must be approved by at least two-thirds of the votes cast by Shareholders present in person or represented by proxy at the Meeting or any adjournment or postponement thereof.

The text of the Share Consolidation Resolution to be submitted to Shareholders at the Meeting is set forth below:

**"BE IT RESOLVED THAT:**

1. the amendment to the articles of continuance of the Company, to be completed at the Board's sole discretion, to effect a share consolidation (reverse stock split) of the Company's outstanding common shares in a ratio of between one-for-five and one-for-ten at any time prior to the one year anniversary of the date hereof, without further shareholder approval; provided that all fractional common shares as a result of the share consolidation shall be automatically rounded up to the next whole common share, is hereby authorized and approved; and
2. any one director or officer of the Company be and is hereby authorized and directed to execute and deliver for and in the name of and on behalf of the Company, whether under its corporate seal or not, all such certificates, instruments, agreements, documents and notices and to do all such other acts and things as in such person's opinion as may be necessary or desirable for the purpose of giving effect to these resolutions."

**Proxies received in favour of management will be voted in favour of the Share Consolidation Resolution, unless the Shareholder has specified in the proxy that his, her or its Shares are to be voted against the Share Consolidation Resolution.**

**OTHER MATTERS WHICH MAY COME BEFORE THE MEETING**

Management knows of no matters to come before the Meeting other than the matters referred to in the notice of Meeting. Receipt at the Meeting of reports to the Directors and auditors and the Company's financial statements for its last completed financial year and the auditors' report thereon will not constitute approval or disapproval of any matters referred to therein. If any matters which are not now known should properly come before the Meeting, the accompanying form of proxy will be voted on such matters in accordance with the best judgment of the person voting it.

## STATEMENT OF EXECUTIVE COMPENSATION

As of the year-ended June 30, 2019 the Company had four individuals that qualified as NEOs: Craig Scherba, President and CEO, Marc Johnson, CFO, Robin Borley, SVP, and Brent Nykoliati, SVP. The remaining directors of the Company are John Sanderson, Dean Comand and Dalton Larson.

### **Compensation Discussion and Analysis**

The objectives of the compensation program is to balance the need to offer competitive compensation compared to peer companies in the mining industry and with comparably sized companies at a similar stage of development in order to attract and retain high-calibre executives against the need to provide compensation programs that are fair and reasonable from the perspective of shareholders.

The Company compensation program has been designed to achieve the following key objectives:

#### 1. Recruit and Retain High-Calibre Executive Management

The Company structures its executive compensation so that it can continue to attract, retain and motivate key executives in Canada and South Africa in a highly competitive mining industry.

#### 2. Providing Fair and Competitive Compensation

The Company has established executive compensation principles and formalized a compensation policy for its executive officers. The executive compensation program is designed to provide fair and competitive compensation through the following elements of compensation: (i) a competitive cash compensation consisting of base salary, milestone-based performance bonuses and certain perquisites and (ii) providing an opportunity to participate in the Company’s long-term growth through the grant of Options.

#### 3. Balancing the Interests of Executive Management and Shareholders of the Company

The executive compensation program aligns the interests of executive management with the interests of the shareholders through the following elements: (i) the opportunity for executives to achieve contractual bonuses based the achievement of specific project development milestones and (ii) the grant of Options, which if the price of the Company’s Shares increase over time, both executives and Shareholders will benefit.

The compensation program is designed to reward the advancement of the Company’s development projects and the long-term appreciation of the Company’s Share price.

The basic elements of the compensation program are base salary, annual incentive bonuses and long-term Option incentives.

### **Base Salary**

On an individual basis, base salaries are reviewed for each executive officer, including the CEO, and where it is deemed necessary, changes are made. In order to ensure that base salaries paid are competitive relative to other similar positions within the mining industry in Canada and South Africa, surveys of such salaries are examined. Other considerations taken into account when examining base salaries include years of experience, the potential contribution which the individual can make to the success of the Company and the level of responsibility and authority inherent in the job and the importance of maintaining internal equity within the organization.

### **Annual Incentives**

The Compensation Committee may recommend bonuses be paid to executive officers of the Company when their performance warrants additional consideration. There is currently no annual bonus plan but the NEO's are eligible for certain discretionary performance bonuses linked to achieving Company milestones:

- The CEO and SVP Corporate Development will earn performance bonuses linked to the closing of a definitive offtake agreement and the commencement of mining and commissioning of the processing plant (payable 6 months after commencement).
- The CFO will earn performance bonuses linked to completion of the Share Consolidation and the commencement of mining and commissioning of the processing plant (payable 6 months after commencement).
- The SVP Mining will earn performance bonuses linked to the start of plant construction (initiation of siteworks) and the commencement of mining and commissioning of the processing plant (payable 6 months after commencement).

### Option-Based Incentives

Options to purchase the Shares of the Company encourage executive officers to own and hold the Company's Shares and are a method of linking the performance of the Company and the appreciation of share value to the compensation of the executive officer. When determining the number of Options granted to an executive officer, items such as the relative position of the individual officer, the contribution made by that officer during the review period and the number of Options granted previously would be taken into consideration.

The Compensation Committee recommends Option grants to the Board. Pursuant to the Stock Option Plan, the Company's Board grants Options to directors, executive officers, other employees and consultants as incentives. The level of Options awarded to a Named Executive Officer (as hereinafter defined) is determined by his position and his potential future contributions to the Company.

### Other Compensation – Perquisites

Perquisites such as health benefits and other usual perquisites may be provided for executives in accordance with local practices in order.

### Associated Risks

The Compensation Committee has discussed the implications of the risks associated with the Company's compensation policies and practices. The Compensation Committee works with management of the Company to determine the risk oversight principles.

The Company has not adopted a policy that prevents the executive officers and directors of the Company to purchase financial instruments, including, prepaid variable forward contracts, equity swaps, collars or units of exchange funds, that are designed to hedge or offset a decrease in market value of equity securities granted as compensation or held, directly or indirectly, by the executive officer or director

The Company was affected by the mining industry slowdown from 2014 to 2015 but failed to recover in 2016/2017 due to continued weakness in the price of graphite during this period. The price of the Shares of the Company has improved significantly since mid-2017 due to the improvement in the price of graphite and the achievement of company-specific milestones in 2017, 2018 and 2019, which included the completion of redomicile of the Company to Canada, the update of the technical report relating to the Molo Graphite Project and obtaining the Molo Graphite Project mining permit in early 2019.

Concurrent with the submission of the mining permit for the Molo Graphite Project to the Government of Madagascar in early 2017, the Compensation Committee renegotiated the employment and consulting contracts of the executive officers. As a result, the Company's Share price trend shown by the graph above coincides with the increase in the Company's compensation to executive officers reported under this form for the same period.

## Option-Based Awards

The Compensation Committee reviews on an annual basis the cash compensation, performance and overall compensation package for each of the President and Chief Executive Officer, Chief Financial Officer, and the Senior

Vice Presidents. It then submits to the Board recommendations with respect to the basic salary, bonus and participation in the New Stock Option Plan for such executive officers.

Prior to approving any grants of Options, the Board considers the unexercised Options already granted to the individual, timing of the expirations of those Options and the likelihood that those Options may become exercisable relative to the stock price performance.

## STATEMENT OF CORPORATE GOVERNANCE PRACTICES

National Policy 58-201 – *Corporate Governance Guidelines* (“NP 58-201”) and National Instrument 58-101 – *Disclosure of Corporate Governance Practices* (“NI 58-101”) set out a series of guidelines for effective corporate governance. The guidelines address matters such as the constitution and independence of corporate boards, the function to be performed by boards and their committees and the effectiveness and education of board members. NI 58-101 requires the disclosure by each reporting issuer of its approach to corporate governance with reference to the guidelines as it is recognized that the unique characteristics of individual corporations will result in varying degrees of conformity. The following disclosure is provided in accordance with the corporate governance disclosure prescribed by Form 58-101F2 of NI 58-101.

### Corporate Governance

The Board and management consider good corporate governance to be central to the effective and efficient operation of the Company. The Board is committed to sound corporate governance practices, which are both in the interest of its Shareholders and contribute to effective and efficient decision making.

The role of the Board is to oversee the conduct of the Company's business, to set corporate policy and to supervise management, which is responsible to the Board for the day-to-day conduct of business. Material transactions are addressed at the Board level. The Board discharges five specific responsibilities as part of its stewardship responsibility. These are:

- (1) Strategic Planning Process: given the Company's size, the strategic plan is carried out directly by management, with input from and assistance of the Board;
- (2) Managing Risk: the Board directly oversees most aspects of the business of the Company and thus, does not require elaborate systems or numerous committees to effectively monitor and manage the principal risks of all aspects of the business of the Company;
- (3) Appointing, Training, and Monitoring Senior Management: no elaborate system of selection, training and assessment of Management has been established, given the operations and size of the Company; however, the Board closely monitors Management's performance, which is measured against the overall strategic plan, through reports by and regular meetings with management;
- (4) Communication Policy: the Company has a Disclosure Committee and formal disclosure policy allowing it to communicate effectively and accurately with its Shareholders, other stakeholders, and the public generally through statutory filings and news releases; the Shareholders are also given an opportunity to make comments or suggestions at Shareholder meetings; these comments and suggestions are then factored into the Board's decisions; and
- (5) Ensuring the integrity of the Company's Internal Control and Management Information System: given the involvement of the Board in operations, the reports from and the meetings with management, the Board can effectively track and monitor the implementation of approved strategies.

The President and Chief Executive Officer of the Company is a member of the Board, as is usual given the Company's size. The Board feels that this is not an impediment to the proper discharge of its responsibilities. Interaction between members of management and the Board, inside and outside Board meetings, ensures that the Board is informed and the Board members' experience utilized by management. The Board remains cognizant to corporate governance issues and seeks to set up structures to ensure the effective discharge of its responsibilities without creating additional costs. The Board is committed to ensuring the Company's long-term viability, and the well-being of its employees and of the communities in which it operates. The Board has also adopted a policy of permitting individual directors, under appropriate circumstances, to engage legal, financial or other advisors at the Company's expense. The majority of the Board, when elected, was comprised of independent directors. See “*Election of Directors*”.

The Board is of the view that the Company's approach to corporate governance is appropriate for its current size and resources, but will monitor its approach as it progresses in its business plans. The Company will periodically monitor and refine such practices as the size and scope of its operations increase. The Board regularly reviews, evaluates and modifies its governance program to ensure it is of the highest standard. The Board is satisfied that the Company's governance plan is consistent with legal and stock exchange requirements.

The Company does not have a policy requiring members of the Board to attend annual meetings of Shareholders, although the Company typically encourages the Board to attend.

### **Board of Directors**

At the last annual meeting of Shareholders, which was held on December 4, 2018, the following individuals were elected as the Company’s directors: John Sanderson, Craig Scherba, Quentin Yarie, Robin Borley, Jr., Dean Comand and Dalton Larson. Mr. Yarie subsequently resigned as a director on September 27, 2019.

NI 58-101 defines an “independent director” as a director who has no direct or indirect material relationship with the Company. A “material relationship” is defined as a relationship, which could, in the view of the Board, be reasonably expected to interfere with such member’s independent judgment. John Sanderson, Dean Comand and Dalton Larson are considered “independent directors”.

Independent directors do not hold regularly scheduled meetings at which non-independent directors and members of management are not in attendance. Independent directors are encouraged to hold unscheduled and informal meetings to discuss issues ahead of regularly scheduled meetings of the Board.

Since the last annual meeting of Shareholders, the Board has met 10 times. Mr. Sanderson attended 10 meetings, Mr. Scherba attended 10 meetings, Mr. Borley attended 9 meetings, Mr. Comand attended 9 meetings, Mr. Larson attended 10 meetings. No member of the Board attended fewer than 75% of the total number of board and committee meetings.

Directors are invited to speak with the Company's solicitors, auditors and other service providers to become familiar with their legal responsibilities.

A copy of the Company’s Code of Ethics is available on the Company’s website at [www.nextsourcematerials.com](http://www.nextsourcematerials.com) under the “Corporate Policies & Governance” caption. The Company’s Board has three committees: Audit Committee, Nomination Committee, and Compensation Committee.

***Audit Committee***

The Audit Committee has a charter, the full text of which is attached to this Circular as “Appendix B” and is also available on the Company’s website at [www.nextsourcematerials.com](http://www.nextsourcematerials.com) under the “Corporate Policies & Governance” caption.

***Nomination Committee***

The Nomination Committee consists of Dalton Larson and John Sanderson. All members are independent as per the standards of National Instrument 58-101. During fiscal 2019, the Nomination Committee met 2 times in person or by telephone.

The Nomination Committee has a charter, a copy of which is available on the Company’s website at [www.nextsourcematerials.com](http://www.nextsourcematerials.com) under the “Corporate Policies & Governance” caption. The Nomination Committee seeks to attract and maintain directors with business expertise, and in particular, knowledge of mineral development, geology, investment banking, corporate law and finance. Further, the Company seeks to have the right mix of these disciplines. Nominations tend to be the result of recruitment efforts by management and directors, which are then presented to the Nomination Committee and then to the Board for consideration. The Nomination Committee has no specified policy regarding consideration of any director candidates recommended by securityholders, as it believes the most effective recruitment efforts are those led by management and directors.

***Compensation Committee***

The Compensation Committee consists of Dalton Larson (Chair), John Sanderson and Dean Comand. All members are independent as per the standards of National Instrument 58-101. During fiscal 2019, the Compensation Committee met 2 times in person or by telephone.

The Compensation Committee determines compensation based on industry standards, the employee or consultant’s level of experience, and the Company’s financial situation.

**Directorships**

The following directors of the Company are presently directors of the following other issuers that are reporting issuers, or the equivalent, in a Canadian or foreign jurisdiction:

Director	Name of Reporting Issuer	Exchange	Position
Craig Scherba	Honey Badger Exploration Inc.	TSX-V	Director

Dalton Larson	Cloud Nine Education Group SmartCool Systems Inc.	CSE TSX-V	Director Director

### Director Assessments

The Board uses peer reviews to assess, on an annual basis, the effectiveness of the Board as a whole and of each of the individual Directors in order to determine whether the Board is functioning effectively.

### Director Term Limits

The Company has not instituted director term limits. The Company believes that in taking into account the nature and size of the Board and the Company, it is more important to have relevant experience than to impose set time limits on a director's tenure, which may create vacancies at a time when a suitable candidate cannot be identified and as such would not be in the best interests of the Company. In lieu of imposing term limits, the Company regularly monitors director performance through annual assessments and regularly encourages sharing and new perspectives through regularly scheduled Board meetings, meetings with only independent directors in attendance, as well as through continuing education initiatives. On a regular basis, the Company analyzes the skills and experience necessary for the Board and evaluates the need for director changes to ensure that the Company has highly knowledgeable and motivated Board members, while ensuring that new perspectives are available to the Board.

Name	Age	Director Since	Years of Tenure
John Sanderson	84	January 2009	10.8 years
Craig Scherba	46	January 2010	9.8 years
Robin Borley	51	December 2013	5.9 years
Dean Comand	53	October 2014	5.1 years

### Female Representation in Management and on the Board

The Company currently has six Board members and four executive officers, none of whom are female.

The Company has not implemented a diversity policy; however, the Company believes that it currently promotes the benefits of, and need for, extending opportunities to all candidates, without distinction as to gender, race, colour, religion, sexual orientation, family or marital status, political belief, age, national or ethnic origin, citizenship, disability, or any other basis and will strive for diversity of experience, perspective and education. The Company believes that it currently focuses on hiring the best quality individuals for the position and also encourages representation of women on the Board and in executive officer positions.

While the Nomination Committee does not have a formal diversity policy for Board membership, the Nomination Committee seeks directors who represent a mix of backgrounds and experiences that will enhance the quality of the Board's deliberations and decisions. The Nomination Committee considers, among other factors, diversity with respect to viewpoint, skills, experience, character and behavior qualities in its evaluation of candidates for Board membership.

The Company has not adopted a written policy relating to the identification and nomination of women directors and executive officers. The Nomination Committee has been tasked with identifying and nominating a woman as an eventual seventh director. The Company has not considered the level of representation of women in its executive officer positions or on its Board in previous nominations or appointments (including a targeted number or percentage).

The Company's focus has always been, and will continue to be, to attract the highest quality executive officers and Board candidates with special focus on the skills, experience, character and behavioral qualities of each candidate. The Company will continue to monitor developments in the area of diversity.

## **Board's Relations with Management**

The interaction between Management and Board members, both inside and outside of meetings of the Board, ensures that the Board is properly informed and that the Board members' experience is brought to bear when needed by management.

The Board remains sensitive to corporate governance issues and seeks to set up the necessary structures to ensure the effective discharge of its responsibilities without creating additional overhead costs or reducing the return on shareholders' equity. The Board is committed to ensuring the long-term viability of the Company, as well as the well-being of its consultants and of the communities in which it operates. The Board has also adopted a policy of permitting individual Directors under appropriate circumstances to engage legal, financial or other expert advisors at the Company's expense.

## **AUDIT COMMITTEE INFORMATION AND OVERSIGHT**

National Instrument 52-110 – *Audit Committees* (“NI 52-110”) requires that certain information regarding the Audit Committee be included in the management Circular sent to shareholders in connection with the issuer's annual meeting.

The Audit Committee is responsible for the oversight and for recommending the appointment, compensation, retention, termination of an independent external auditor engaged for the purpose of preparing or issuing an audit report or performing other audit, review or attest services for the Company. The Company has not yet adopted any specific policies or procedures regarding the engagement of non-audit services, but does review such matters as they arise in light of factors such as the Company's current needs and the availability of services.

The Audit Committee consists of Dean Comand (Chair), Dalton Larson and John Sanderson. All members are independent and “financially literate” as per the standards of National Instrument 52-110. During fiscal 2019, the Audit Committee met four (4) times in person or by telephone. All Audit Committee members attended all four meetings.

## Summary of the Option Plans

### *Stock Option Plan*

The purpose of the Stock Option Plan is to advance the interests of the Company, by providing an additional incentive to attract, retain and motivate highly qualified and competent persons who are key to the Company and upon whose efforts and judgment the success of the Company and its subsidiaries is largely dependent. Eligibility of the Stock Option Plan includes Employees, Consultants, Officers and Directors of the Company or any subsidiary.

Subject to adjustment in certain circumstances, the Company can issue up to 46,000,000 Options under the Stock Option Plan.

The Board (or a committee appointed by the Board) administers the Stock Option Plan. The Board, may designate an exercise price for Options as the prior day closing price on a stock exchange to which the Shares trade.

Subject to the policies of the TSX, the Board may determine the granting of the Options, the exercise price of the Options, and vesting schedule and any terms and conditions attaching to such Options. Options may be issued for a period of up to 10 years and are non-transferrable in the ordinary course. If and for so long as the Shares are listed on the TSX:

- (i) the aggregate number of Shares issued to insiders of the Company within any 12-month period, or issuable to insiders of the Company at any time, under the Stock Option Plan and any other security-based compensation arrangement of the Company, may not exceed 10% of the total number of issued and outstanding Shares of the Company at such time;
- (ii) the maximum aggregate number of Shares that may be reserved under the Stock Option Plan for issuance to any one individual in any 12-month period shall not exceed 5% of the issued and outstanding Shares at the time of grant, unless the Company has obtained disinterested shareholder approval for such an issuance;
- (iii) the maximum aggregate number of Shares that may be reserved under the Stock Option Plan or other share compensation arrangements of the Company for issuance to any one consultant during any 12-month period shall not exceed 2% of the issued and outstanding Shares at the time of grant;
- (iv) the maximum aggregate number of Shares that may be reserved under the Stock Option Plan or other share compensation arrangement of the Company for issuance to persons who are employed in investor relations activities during any 12-month period shall not exceed 2% of the issued and outstanding Shares at the time of grant; and
- (v) the Board shall, through the establishment of the appropriate procedures, monitor the trading in the securities of the Company by all optionees performing investor relations activities.

Unless otherwise expressly provided in any option agreement, and subject to any applicable limitations contained in the Stock Option Plan, the unexercised portion of any Option shall automatically and without notice immediately terminate and become forfeited, null and void at the time of the earliest to occur of the following:

- (i) the expiration of a period not to exceed one year (such period to be determined by the Board in its sole discretion) after the date on which the optionee's employment is terminated for any reason other than by reason of (a) cause, (b) the termination of the optionee's employment with the Company by such optionee following less than 60 days' prior written notice to the Company of such termination, (c) a mental or physical disability, or (d) death;
- (ii) immediately upon (a) the termination by the Company of the optionee's employment for cause, or (b) an improper termination;

- (iii) the later of (a) the expiration of a period not to exceed one year (such period to be determined by the Board in its sole discretion) after the date on which the optionee's employment is terminated by reason of a mental or physical disability, or (b) one year after the date on which the optionee shall die if such death shall occur during such period;
- (iv) one year after the date of termination of the optionee's employment by reason of death of the employee; or
- (v) the expiration date of the Option established on the date of grant and set forth in the option agreement. Upon termination of optionee's employment any Option (or portion thereof) not previously vested or not yet exercisable pursuant to the terms of the Stock Option Plan shall be immediately cancelled.

Under the terms of the Stock Option Plan, the Board is permitted to make certain adjustments or modifications to the Stock Option Plan and any Option that may have been issued under the Stock Option Plan. Notwithstanding the amendment provisions included in the Stock Option Plan, the following may not be amended without approval of security holders:

- (i) reduction in the exercise price or purchase price benefiting an insider of the Company;
- (ii) any amendment to remove or to exceed the insider participation limit;
- (iii) an increase to the maximum number of securities issuable, either as a fixed number or a fixed percentage of the listed issuer's outstanding capital represented by such securities; and
- (iv) amendments to an amending provision within a security based compensation arrangement.

The Board may grant stock appreciation rights in tandem with Options that have been or are granted under the Stock Option Plan. A stock appreciation right shall entitle the holder to receive in cash, with respect to each Share as to which the right is exercised, payment in an amount equal to the excess of the share's fair market value on the date the right is exercised over its fair market value on the date the right was granted. To date no stock appreciation rights have been granted.

The Stock Option Plan shall terminate in November 2026.

#### *New Stock Option Plan*

The principal purposes of the New Stock Option Plan is to secure for the Company and its Shareholders the benefits of incentive inherent in the share ownership by issuing Options to the employees (including part-time employees), directors or officers of the Company or any of its subsidiaries or affiliates, management company employees, consultants, and service providers ("**Optionees**") who, in the judgment of the Board, will be largely responsible for its future growth and success. It is generally recognized that a stock option plan of the nature provided for in the New Stock Option Plan aids in retaining and encouraging persons of exceptional ability because of the opportunity offered them to acquire a proprietary interest in the Company.

The maximum number of Shares available at all times for issuance under the New Stock Option Plan or any other security based compensation arrangements (pre-existing or otherwise) shall not exceed 10% of the issued and outstanding Shares at the time of grant. Any increase in the number of issued and outstanding Shares will result in an increase in the number of Shares issuable under the New Stock Option Plan. The New Stock Option Plan is an "evergreen" plan and accordingly, any issuance of Shares from treasury, including issuances of Shares in respect of which Options are exercised, and any expired or cancelled Options, shall automatically replenish the number of Options issuable under the New Stock Option Plan.

The exercise price per Share under an Option shall be determined by the Board, but, in any event, shall not be lower than the market price of the Shares on the date of grant of the Options, being the closing price of the Shares on the TSX (or if the Shares are not then listed on the TSX, on the principal stock exchange on which such Shares are traded, on the trading day of the Option grant)(the "**Market Price**"). In the event that the Shares are not then listed and posted for trading on a stock exchange, the Market Price shall be the fair market value of such Shares as determined by the Board in its sole discretion.

The exercise price per Share under an Option shall be determined by the Board, but, in any event, shall not be lower than the market price of the Shares on the date of grant of the Options.

The period within which Options may be exercised and the number of Options which may be exercised in any such period are determined by the Board at the time of granting the Options provided, however, that the maximum term of any Options awarded under the New Stock Option Plan is ten (10) years from the date of the Option grant.

In the event that the expiry of an Option falls within, or within two (2) days of, a trading blackout period imposed by Company, the expiry date of the Option shall be automatically extended to the tenth business day following the end of the blackout period.

An Optionee will have, in all cases subject to the original Option expiry date and any determination otherwise by the Board:

- In the event of retirement or resignation, a 12-month period to exercise his or her Options, which will automatically vest;
- In the event of the death or disability of an Optionee, a 12-month period to exercise his or her Options, which will automatically vest;
- In the event of termination without cause of an Optionee, the Optionee will have 12 months to exercise his or her Options which have vested, but any unvested Options will become void; and
- In the event of termination with cause, Options shall become void, except as may be set out in the Optionee's Option commitment or as otherwise determined by the Board in its sole discretion.

In the event of a change of control, the vesting of all Options and the time for the fulfilment of any conditions or restrictions on such vesting shall be accelerated to a date or time immediately prior to the effective time of the change of control, and the Board, in its sole discretion, may authorize and implement any one or more of the following additional courses of action:

- Terminating without any payment or other consideration, any Options not exercised or surrendered by the effective time of the change of control;
- Causing the Company to offer to acquire from each Optionee his or her Options for a cash payment equal to the in-the-money amount, and any Options not so surrendered or exercised by the effective time of the change of control will be deemed to have expired; and
- An Option granted under the New Stock Option Plan be exchanged for an option to acquire, for the same exercise price, that number and type of securities as would be distributed to the Optionee in respect of the Shares issued to the Optionee had he or she exercised the Option prior to the effective time of the change of control, provided that any such replacement option must provide that it survives for a period of not less than one (1) year from the effective time of the change of control, regardless of the continuing directorship, officership or employment of the Optionee.

For great certainty, and notwithstanding anything else to the contrary contained in the New Stock Option Plan, the Board may, in its sole discretion, in any change of control which may or has occurred, make such arrangements as it deems appropriate for the exercise of issued and outstanding Options including, without limitation, the power to modify the terms of the New Stock Option Plan and/or the Options as contemplated above. If the Board exercises such power, the Options shall be deemed to have been amended to permit the exercise thereof in whole or in part by the Optionee at any time or from time to time as determined by the Board prior to or in conjunction with completion of the change of control.

The grant of Options under the New Stock Option Plan is subject to a restriction such that the number of Shares: (i) issued to insiders of Company, within any one-year period, and (ii) issuable to insiders of Company, at any time, under the New Stock Option Plan, or when combined with all of Company's other security based compensation arrangements, shall not exceed 10% of Company's total issued and outstanding Shares, respectively.

The Board may delegate, to the extent permitted by applicable law and by resolution of the Board, its powers under the New Stock Option Plan to the Compensation Committee, or such other committee as the Board may determine from time to time, such committee consisting of no less than two (2) members.

Options are not assignable or transferable other than by will or by the applicable laws of descent. During the lifetime of an Optionee, all Options may only be exercised by the Optionee.

The amendment provisions of the New Stock Option Plan provide the Board with the power, subject to the requisite regulatory approval, to make the following amendments to the provisions of the New Stock Option Plan and any Option commitment without Shareholder approval (without limitation):

- Amendments of a housekeeping nature,
- Additions or changes to any vesting provisions of an Option,
- Changes to the termination provisions of an Option or the New Stock Option Plan which do not entail an extensions beyond the original expiry date,
- Addition of a cashless exercise feature, payable in cash or securities, whether or not providing for a full deduction of the number of underlying Shares from the New Stock Option Plan reserves, and
- Amendments to reflect changes to applicable securities or tax laws.

However, any of the following amendments require Shareholder approval:

- Reducing the exercise price of an Option, cancelling and reissuing an Option, or cancelling an Option in order to issue an alternative entitlement,
- Amending the term of an Option to extend the term beyond its original expiry date,
- Materially increasing the benefits to the holder of Options who is an insider to the material detriment of Company and the Shareholders,
- Increasing the number of Shares or maximum percentage of Shares which may be issued pursuant to the New Stock Option Plan (other than by virtue of adjustments permitted under the New Stock Option Plan),
- Permitting Options to be transferred other than for normal estate settlement purposes,
- Removing or exceeding of the insider participation limits,
- Materially modifying the eligibility requirements for participation in the New Stock Option Plan, or
- Modifying the amending provisions of the New Stock Option Plan.
