CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Certain statements contained in this document constitute forward-looking information within the meaning of applicable Canadian securities legislation. Generally, forward-looking information can be identified by the use of forward-looking terminology such as “plans,” “expects,” or “does not expect,” “is expected,” “budget,” “scheduled,” “goal,” “estimates,” “forecasts,” “intends,” “anticipates,” or “does not anticipate,” or “believes” or variations of such words and phrases or statements that certain actions, events or results “may,” “could,” “would,” “might,” or “will be taken,” “occur,” or “be achieved”.

Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance, or achievements of the Company to be materially different from those expressed or implied by such forward-looking information. Such factors include, among others; uncertainty due to the Covid-19 Pandemic; development projects are uncertain, and it is possible that actual capital and operating costs and economic returns will differ significantly from those estimated for a project prior to production; the Company’s development and exploration projects are in the African country of Madagascar and are subject to country political and regulatory risks; economic dependence on the Molo Graphite Mine; the Company has a significant shareholder; additional permits and licenses are necessary to complete the development of the Molo Graphite Mine; construction and start-up of new mines and industrial plants; fluctuations in the market price of graphite and other metals may adversely affect the value of the Company’s securities, revenue projections and the ability of the Company to develop Phase 2 of the Molo Graphite Mine and the ability to develop BAF plants; estimates of mineral resources and mineral reserves may not be realized; the Company may not have access to sufficient capital to develop Phase 2 of the Molo Graphite Mine and value-added processing facilities; the Company has a limited operating history and expects to incur operating losses for the foreseeable future; due to the speculative nature of mineral property exploration, there is substantial risk that the Company’s assets will not go into commercial production and the business will fail; mining companies are increasingly required to consider and provide benefits to the communities and countries in which they operate, and are subject to extensive environmental, health and safety laws and regulations; because of the inherent dangers involved in mineral exploration, there is a risk that the Company may incur liability or damages as the Company conducts business; the Company has no insurance for environmental problems; should the Company lose the services of key executives, the Company’s financial condition and proposed expansion may be negatively impacted; because access to the Company’s properties may be restricted by inclement weather or proper infrastructure, its exploration programs are likely to experience delays; climate change and related regulatory responses may impact the Company’s business; compliance with changing regulation of corporate governance and public disclosure will result in additional expenses and pose challenges for management; tax risks; because from time to time the Company holds a significant portion of cash reserves in Canadian dollars, the Company may experience losses due to foreign exchange translations; the Company’s business is subject to anti-corruption and anti-bribery laws, a breach or violation of which could lead to civil and criminal fines and penalties, loss of licenses or permits and reputational harm; the Company is exposed to general economic conditions, which could have a material adverse impact on its business, operating results and financial condition; the market price for the Common Shares is particularly volatile given the Company’s status as a company with a small public float, limited operating history and lack of profits which

could lead to wide fluctuations in the market price for the Common Shares; the Company does not intend to pay dividends in the foreseeable future; and the Company's ability to meet other factors listed from time to time in the Company's continuous disclosure documents, including but not limited to, the Annual Information Form (AIF).

Forward-looking information is based on the reasonable assumptions, estimates, analysis and opinions of management and/or "qualified persons" (as such term is defined under National Instrument 43-101 – Standards of Disclosure for Mineral Projects ("NI 43-101")) made in light of their experience and their perception of trends, current conditions and expected developments, as well as other factors that management and/or qualified persons believe to be relevant and reasonable in the circumstances at the date that such statements are made, but which may prove to be incorrect. Although the Company believes that the assumptions and expectations reflected in such forward-looking information are reasonable, undue reliance should not be placed on forward-looking information because the Company can give no assurance that such expectations will prove to be correct. In addition to the assumptions discussed herein the material assumptions upon which such forward-looking statements are based include, among others, that: the Company will be successful in its financing activities; the demand for graphite will develop as anticipated; graphite prices will remain at or attain levels that would make the Molo Graphite Mine or the BAF plant economic; that any proposed operating and capital plans will not be disrupted by operational issues, title issues, loss of permits, environmental concerns, power supply, labour disturbances, financing requirements or adverse weather conditions; the Company will continue to have the ability to attract and retain skilled staff; and there are no material unanticipated variations in the cost of energy or supplies. Readers are cautioned that the foregoing list is not exhaustive of all factors and assumptions which may have been used. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, readers should not place undue reliance on forward-looking information. The forward-looking information contained herein is presented for the purposes of assisting investors in understanding the Company's expected financial and operating performance and the Company's plans and objectives and may not be appropriate for other purposes.

The Company does not undertake to update any forward-looking information, except in accordance with applicable securities laws.

STATEMENT OF EXECUTIVE COMPENSATION

Under National Instrument 51-102 – *Continuous Disclosure Obligations* ("NI 51-102") and in accordance with Form 51-102F6 – *Statement of Executive Compensation*, requires the disclosure of certain financial and other information relating to the compensation of (1) the Chief Executive Officer ("CEO"), Chief Financial Officer ("CFO") and the three most highly compensated executive officer, other than the CEO and CFO, who was serving as an executive officer at the end of financial year ended June 30, 2020 and whose total compensation exceeded CAD\$150,000, for that financial year (collectively, "NEO" or the "Named Executive Officers") and (2) the directors of the Company.

As of the year-ended June 30, 2022, the Company had four individuals that qualified as NEOs: Craig Scherba, President and CEO, Marc Johnson, CFO, Robin Borley, COO, and Brent Nykoliation, EVP.

Executive Compensation Discussion and Analysis

The Governance Committee is responsible for designing the executive compensation program and reviews on an annual basis the cash compensation, performance, and overall compensation package for the Named Executive Officers. The Governance Committee then recommends to the Board changes to the base salary and the awarding of annual incentive bonuses and long-term

incentives. The Company's Board then approves any changes to the base salary and the awarding of annual incentive bonuses and long-term incentives.

The key objectives of the executive compensation program are to:

1. Attract and retain high-caliber executives by offering competitive compensation as compared to peer companies in the mining industry that are comparably sized and at a similar stage of development.
2. Ensure the compensation programs are fair and reasonable from the perspective of shareholders.

The key elements of the compensation program are:

1. Competitive cash compensation consisting of base salary and annual bonuses.
2. Providing an opportunity to participate in the Company's long-term growth of the Company through the long-term incentive plan, which includes the awarding of stock option and restricted share units.
3. Perquisites

Base Salary and Annual Bonuses

The base salary and annual bonuses, which include cash bonuses and restricted share units that vest upon achieving specific milestones, are reviewed annually, are reviewed at least annually and changes are made as required. To ensure base salaries and annual bonuses are competitive relative to other similar positions within the mining industry in Canada, UK and South Africa, industry surveys of such salaries are examined. Additional considerations include years of experience, the potential contribution which the individual can make towards the success of the Company, the level of responsibility and authority inherent in the job, and the importance of maintaining internal equity within the organization.

The CEO, CFO, COO and EVP will earn cash bonuses linked to the commencement of mining and commissioning of the Molo Mine processing plant.

Long-Term Incentives

The awarding of stock options (exercisable into common shares at a specific exercise price) and restricted share units (convertible into common shares upon achieving certain milestones) are long-term incentives that link the compensation of executive officers with the long-term appreciation of the Company's share price. These are also used to encourage executive officers to own and hold the Company's common shares.

When determining the number of stock options and restricted share units that should be awarded to each executive officer, the following are taken into consideration: the relative position of the individual officer, the future contributions expected to be made by that officer, and the number of stock options and/or restricted share units that were previously granted and/or are currently outstanding.

The CEO, CFO, COO and EVP will earn restricted share units provided they are still employees or consultants of the Company on December 31, 2022, and on June 30, 2023.

Perquisites and Other Compensation

Perquisites such as health benefits and other usual perquisites may be provided for executives.

- The Company has adopted a policy that prevents executive officers and directors of the Company to purchase financial instruments linked to the Company's common shares, which could include prepaid variable forward contracts, equity swaps, collars, or units of exchange funds, that are designed to hedge or offset a decrease in market value of equity securities granted as compensation or held, directly or indirectly.
- The Company has adopted an Insider Trading Policy to prevent improper trading and the appearance of improper trading in securities of the Company and any other company in respect of which material undisclosed information is obtained by the Company, and the improper communication of material undisclosed information regarding the Company or such other companies.

STATEMENT OF CORPORATE GOVERNANCE PRACTICES

National Policy 58-201 – *Corporate Governance Guidelines* (“NP 58-201”) and National Instrument 58-101 – *Disclosure of Corporate Governance Practices* (“NI 58-101”) set out a series of guidelines for effective corporate governance. The guidelines address matters such as the constitution and independence of corporate boards, the function to be performed by boards and their committees and the effectiveness and education of board members. NI 58-101 requires the disclosure by each reporting issuer of its approach to corporate governance with reference to the guidelines as it is recognized that the unique characteristics of individual corporations will result in varying degrees of conformity. The following disclosure is provided in accordance with the corporate governance disclosure prescribed by Form 58-101F2 of NI 58-101.

Corporate Governance

The Board and management consider good corporate governance to be central to the effective and efficient operation of the Company. The Board is committed to sound corporate governance practices, which are both in the interest of its shareholders and contribute to effective and efficient decision making.

The role of the Board is to oversee the conduct of the Company's business, to set corporate policy and to supervise management, which is responsible to the Board for the day-to-day conduct of business. Material transactions are addressed at the Board level.

The Board discharges five specific responsibilities as part of its stewardship responsibility. These are:

- (1) Strategic Planning: Adopt a strategic planning process and review on an annual basis the strategic plan, which will be executed by management.
- (2) Committees: Establish committees of the Board, delegate the appropriate responsibilities to those said committees, and appoint the Chairs for committees of the Board.
- (3) Oversight of Management: Closely monitor management's performance as measured against the strategic plan through regular reports and meetings with management and approve the compensation of management.
- (4) Risk Management: Identify the principal business risks and review and approve key policies and practices, particularly in the areas of mine development and safety, property acquisitions, mineral reserve and mineral resource estimations,

internal control, corporate governance, and risk management and ensure the implementation of appropriate systems to manage those risks.

- (5) Internal Controls: Ensure the integrity of the Company's internal controls, management information systems and cybersecurity.

The Board is of the view that the Company's approach to corporate governance is appropriate for its current size and resources but will monitor its approach as it executes its business plans. The Company periodically monitors and refines such practices as the size and scope of its operations increase. The Board regularly reviews, evaluates, and modifies its governance program to ensure it is of the highest standard. The Board is satisfied that the Company's governance plan is consistent with legal and stock exchange requirements. The Board remains cognizant to corporate governance issues and seeks to set up structures to ensure the effective discharge of its responsibilities without creating additional costs.

The President and CEO of the Company is a member of the Board, as is usual given the Company's current size. The Board feels that this is not an impediment to the proper discharge of its responsibilities. Interaction between members of management and the Board, inside and outside Board meetings, ensures that the Board is informed, and the Board members' experience is utilized by management.

Board Mandate

The Board of Directors has developed a written Board of Directors Mandate description. The full text of the Board Mandate is attached to this Circular as "Appendix A" and is also available on the Company's website at www.nextsourcematerials.com under the "Corporate Policies & Governance" section.

Board of Directors

The Board of Directors consists of Sir Mick Davis (Non-Executive Chair), Craig Scherba (CEO), Robin Borley (COO), Brett Whalen, Chris Kruba, and Ian Pearce. All current directors were elected at the previous Annual Meeting of Shareholders held on December 6, 2021.

Other Directorships

The following directors are presently directors of other companies that are reporting issuers, or the equivalent, in a Canadian or foreign jurisdiction:

1. Ian Pearce is the Chair of the Board of Directors of Newgold Inc., and is a Director of Northland Power Inc., and Metso Outotec.

Independent Directors

As of the date of this Circular, the following directors are considered "independent directors": Brett Whalen, Chris Kruba, and Ian Pearce.

NI 58-101 defines an "independent director" as a director who has no direct or indirect material relationship with the Company. A "material relationship" is defined as a relationship, which could, in the view of the Board, be reasonably expected to interfere with such member's independent judgment. Independent directors do not hold regularly scheduled meetings at which non-independent directors and members of management are not in attendance. Independent directors are encouraged to hold unscheduled and informal meetings to discuss issues ahead of regularly scheduled meetings of the Board.

Position Descriptions

The Board of Directors has developed written position descriptions for the Chair of the Board, the Chair of Board committees, and the CEO. These Chairs are required to set the agenda for respective meetings, assign meeting secretaries, call the meetings to proper order, and ensure the meeting agendas are respected and that matters are duly discussed. The written position description for the Chief Executive Officer is reviewed annually. A copy of the Company's position descriptions is available on the Company's website at www.nextsourcematerials.com under the "Corporate Policies & Governance" section.

Board's Relations with Management

The interaction between Management and Board members, both inside and outside of meetings of the Board, ensures that the Board is properly informed and that the Board members' experience is brought to bear when needed by management.

The Board remains sensitive to corporate governance issues and seeks to set up the necessary structures to ensure the effective discharge of its responsibilities without creating additional overhead costs or reducing the return on shareholders' equity. The Board is committed to ensuring the long-term viability of the Company, as well as the well-being of its consultants and of the communities in which it operates. The Board has also adopted a policy of permitting individual Directors under appropriate circumstances to engage legal, financial, or other expert advisors at the Company's expense.

The Company's Board has the following committees:

The Audit Committee is described in greater detail in the section titled *Audit Committee Information And Oversight*.

The sustainability committee assists the Board in carrying out its responsibilities relating to health and safety, environmental, and corporate social responsibility policies.

Other Committees

The Company has established a Disclosure Committee and formal disclosure policy allowing it to communicate effectively and accurately with its shareholders, other stakeholders, and the public generally through statutory filings and news releases; the shareholders are also given an opportunity to make comments or suggestions at Shareholder meetings; these comments and suggestions are then factored into the Board's decisions.

Director Attendance

The Company does not have a policy requiring members of the Board to attend Annual Meetings of Shareholders, although the Company typically encourages the Board to attend.

Director attendance to Board and committee meetings from July 1, 2021 to June 30, 2022 is set out in the following table with the meetings attended out of the total meetings held while they were directors. No director attended fewer than 75% of the total number of board and committee meetings.

Director Assessments

The Board uses peer reviews to assess, on an annual basis, the effectiveness of the Board as a whole and of each of the individual Directors to determine whether the Board is functioning effectively.

Director Term Limits

The Company has not instituted director term limits or other mechanisms of board renewal.

The Company believes that in considering the nature and size of the Board and the Company, it is more important to have relevant experience than to impose set time limits on a director's tenure, which may create vacancies at a time when a suitable candidate cannot be identified and as such would not be in the best interests of the Company. In lieu of imposing term limits, the Company regularly monitors director performance through annual assessments and regularly encourages sharing and new perspectives through regularly scheduled Board meetings, meetings with only independent directors in attendance, as well as through continuing education initiatives. On a regular basis, the Company analyzes the skills and experience necessary for the Board and evaluates the need for director changes to ensure that the Company has highly knowledgeable and motivated Board members, while ensuring that new perspectives are available to the Board.

The Governance Committee has been tasked with identifying and nominating a woman as a director although no time frame has been set.

Senior Management Diversity

Diversity is also an important consideration in determining the composition of the Company's senior management. The Company believes that having individuals in senior leadership positions from diverse backgrounds promotes better innovation, performance, and effective decision-making.

The Governance Committee seeks directors who represent a mix of backgrounds and business experiences that will enhance the quality of the Board's deliberations and decisions. 2016 Stock Option Plan

The purpose of the 2016 Stock Option Plan is to advance the interests of the Company, by providing an additional incentive to attract, retain and motivate highly qualified and competent persons who are key to the Company and upon whose efforts and judgment the success of the Company and its subsidiaries is largely dependent. Eligibility of the 2016 Stock Option Plan includes Employees, Consultants, Officers and Directors of the Company or any subsidiary.

Subject to adjustment in certain circumstances, the Company can issue up to 46,000,000 Options under the 2016 Stock Option Plan.

The Board (or a committee appointed by the Board) administers the 2016 Stock Option Plan. The Board, may designate an exercise price for Options as the prior day closing price on a stock exchange to which the Shares trade.

Subject to the policies of the TSX, the Board may determine the granting of the Options, the exercise price of the Options, and vesting schedule and any terms and conditions attaching to such Options. Options may be issued for a period of up to 10 years and are non-transferrable in the ordinary course. If and for so long as the Shares are listed on the TSX:

- (i) the aggregate number of Shares issued to insiders of the Company within any 12-month period, or issuable to insiders of the Company at any time, under the 2016 Stock Option Plan and any other security-based compensation arrangement of the Company, may not exceed 10% of the total number of issued and outstanding Shares of the Company at such time;
- (ii) the maximum aggregate number of Shares that may be reserved under the 2016 Stock Option Plan for issuance to any one individual in any 12-month period shall not exceed 5% of the issued and outstanding Shares at the time of grant, unless the Company has obtained disinterested shareholder approval for such an issuance;
- (iii) the maximum aggregate number of Shares that may be reserved under the 2016 Stock Option Plan or other share compensation arrangements of the Company for issuance to any one consultant during any 12-month period shall not exceed 2% of the issued and outstanding Shares at the time of grant;
- (iv) the maximum aggregate number of Shares that may be reserved under the 2016 Stock Option Plan or other share compensation arrangement of the Company for issuance to persons who are employed in investor relations activities during any 12-month period shall not exceed 2% of the issued and outstanding Shares at the time of grant; and
- (v) the Board shall, through the establishment of the appropriate procedures, monitor the trading in the securities of the Company by all optionees performing investor relations activities.

Unless otherwise expressly provided in any option agreement, and subject to any applicable limitations contained in the 2016 Stock Option Plan, the unexercised portion of any Option shall automatically and without notice immediately terminate and become forfeited, null and void at the time of the earliest to occur of the following:

- (i) the expiration of a period not to exceed one year (such period to be determined by the Board in its sole discretion) after the date on which the optionee's employment is terminated for any reason other than by reason of (a) cause, (b) the termination of the optionee's employment with the Company by such optionee following less than 60 days' prior written notice to the Company of such termination, (c) a mental or physical disability, or (d) death;

- (ii) immediately upon (a) the termination by the Company of the optionee's employment for cause, or (b) an improper termination;
- (iii) the later of (a) the expiration of a period not to exceed one year (such period to be determined by the Board in its sole discretion) after the date on which the optionee's employment is terminated by reason of a mental or physical disability, or (b) one year after the date on which the optionee shall die if such death shall occur during such period;
- (iv) one year after the date of termination of the optionee's employment by reason of death of the employee; or
- (v) the expiration date of the Option established on the date of grant and set forth in the option agreement. Upon termination of optionee's employment any Option (or portion thereof) not previously vested or not yet exercisable pursuant to the terms of the 2016 Stock Option Plan shall be immediately cancelled.

Under the terms of the 2016 Stock Option Plan, the Board is permitted to make certain adjustments or modifications to the 2016 Stock Option Plan and any Option that may have been issued under the 2016 Stock Option Plan. - (ii) any amendment to remove or to exceed the insider participation limit;
- (iii) an increase to the maximum number of securities issuable, either as a fixed number or a fixed percentage of the listed issuer's outstanding capital represented by such securities; and
- (iv) amendments to an amending provision within a security based compensation arrangement.

The Board may grant stock appreciation rights in tandem with Options that have been or are granted under the 2016 Stock Option Plan. A stock appreciation right shall entitle the holder to receive in cash, with respect to each Share as to which the right is exercised, payment in an amount equal to the excess of the share's fair market value on the date the right is exercised over its fair market value on the date the right was granted. To date no stock appreciation rights have been granted.

The 2016 Stock Option Plan shall terminate in November 2026.

2018 Stock Option Plan

The principal purposes of the 2018 Stock Option Plan is to secure for the Company and its Shareholders the benefits of incentive inherent in the share ownership by issuing Options to the employees (including part-time employees), directors or officers of the Company or any of its subsidiaries or affiliates, management company employees, consultants, and service providers ("**Optionees**") who, in the judgment of the Board, will be largely responsible for its future growth and success. It is generally recognized that a stock option plan of the nature provided for in the 2018 Stock Option Plan aids in retaining and encouraging persons of exceptional ability because of the opportunity offered them to acquire a proprietary interest in the Company.

The maximum number of Shares available at all times for issuance under the 2018 Stock Option Plan or any other security based compensation arrangements (pre-existing or otherwise) shall not exceed 10% of the issued and outstanding Shares at the time of grant. Any increase in the number of issued and outstanding Shares will result in an increase in the number of Shares issuable under the 2018 Stock Option Plan. The 2018 Stock Option Plan is an "evergreen" plan and accordingly, any issuance of Shares from treasury, including issuances of Shares in respect of which Options are exercised, and any expired or cancelled Options, shall automatically replenish the number of Options issuable under the 2018 Stock Option Plan.

The exercise price per Share under an Option shall be determined by the Board, but, in any event, shall not be lower than the market price of the Shares on the date of grant of the Options, being the closing price of the Shares on the TSX (or if the Shares are not then listed on the TSX, on the principal stock exchange on which such Shares are traded, on the trading day of the Option grant)(the "**Market Price**"). In the event that the Shares are not then listed and posted for trading on a stock exchange, the Market Price shall be the fair market value of such Shares as determined by the Board in its sole discretion. The exercise price per Share under an Option shall be determined by the Board, but, in any event, shall not be lower than the market price of the Shares on the date of grant of the Options.

The period within which Options may be exercised and the number of Options which may be exercised in any such period are determined by the Board at the time of granting the Options provided, however, that the maximum term of any Options awarded under the 2018 Stock Option Plan is ten (10) years from the date of the Option grant.

In the event that the expiry of an Option falls within, or within two (2) days of, a trading blackout period imposed by Company, the expiry date of the Option shall be automatically extended to the tenth business day following the end of the blackout period.

An Optionee will have, in all cases subject to the original Option expiry date and any determination otherwise by the Board:

- In the event of retirement or resignation, a 12-month period to exercise his or her Options, which will automatically vest;

- In the event of the death or disability of an Optionee, a 12-month period to exercise his or her Options, which will automatically vest;
- In the event of termination without cause of an Optionee, the Optionee will have 12 months to exercise his or her Options which have vested, but any unvested Options will become void; and
- In the event of termination with cause, Options shall become void, except as may be set out in the Optionee's Option commitment or as otherwise determined by the Board in its sole discretion.

In the event of a change of control, the vesting of all Options and the time for the fulfilment of any conditions or restrictions on such vesting shall be accelerated to a date or time immediately prior to the effective time of the change of control, and the Board, in its sole discretion, may authorize and implement any one or more of the following additional courses of action:

- Terminating without any payment or other consideration, any Options not exercised or surrendered by the effective time of the change of control;
- Causing the Company to offer to acquire from each Optionee his or her Options for a cash payment equal to the in-the-money amount, and any Options not so surrendered or exercised by the effective time of the change of control will be deemed to have expired; and
- An Option granted under the 2018 Stock Option Plan be exchanged for an option to acquire, for the same exercise price, that number and type of securities as would be distributed to the Optionee in respect of the Shares issued to the Optionee had he or she exercised the Option prior to the effective time of the change of control, provided that any such replacement option must provide that it survives for a period of not less than one (1) year from the effective time of the change of control, regardless of the continuing directorship, officership or employment of the Optionee.

For great certainty, and notwithstanding anything else to the contrary contained in the 2018 Stock Option Plan, the Board may, in its sole discretion, in any change of control which may or has occurred, make such arrangements as it deems appropriate for the exercise of issued and outstanding Options including, without limitation, the power to modify the terms of the 2018 Stock Option Plan and/or the Options as contemplated above. If the Board exercises such power, the Options shall be deemed to have been amended to permit the exercise thereof in whole or in part by the Optionee at any time or from time to time as determined by the Board prior to or in conjunction with completion of the change of control.

The grant of Options under the 2018 Stock Option Plan is subject to a restriction such that the number of Shares: (i) issued to insiders of Company, within any one-year period, and (ii) issuable to insiders of Company, at any time, under the 2018 Stock Option Plan, or when combined with all of Company's other security based compensation arrangements, shall not exceed 10% of Company's total issued and outstanding Shares, respectively.

The Board may delegate, to the extent permitted by applicable law and by resolution of the Board, its powers under the 2018 Stock Option Plan to the Compensation Committee, or such other committee as the Board may determine from time to time, such committee consisting of no less than two (2) members.

Options are not assignable or transferable other than by will or by the applicable laws of descent. During the lifetime of an Optionee, all Options may only be exercised by the Optionee.

The amendment provisions of the 2018 Stock Option Plan provide the Board with the power, subject to the requisite regulatory approval, to make the following amendments to the provisions of the 2018 Stock Option Plan and any Option commitment without Shareholder approval (without limitation):

- Amendments of a housekeeping nature,
- Additions or changes to any vesting provisions of an Option,
- Changes to the termination provisions of an Option or the 2018 Stock Option Plan which do not entail an extensions beyond the original expiry date,
- Addition of a cashless exercise feature, payable in cash or securities, whether or not providing for a full deduction of the number of underlying Shares from the 2018 Stock Option Plan reserves, and
- Amendments to reflect changes to applicable securities or tax laws.

However, any of the following amendments require Shareholder approval:

- Reducing the exercise price of an Option, cancelling and reissuing an Option, or cancelling an Option in order to issue an alternative entitlement,
- Amending the term of an Option to extend the term beyond its original expiry date,
- Materially increasing the benefits to the holder of Options who is an insider to the material detriment of Company and the Shareholders,
- Increasing the number of Shares or maximum percentage of Shares which may be issued pursuant to the 2018 Stock Option Plan (other than by virtue of adjustments permitted under the 2018 Stock Option Plan),
- Permitting Options to be transferred other than for normal estate settlement purposes,
- Removing or exceeding of the insider participation limits,
- Materially modifying the eligibility requirements for participation in the 2018 Stock Option Plan, or
- Modifying the amending provisions of the 2018 Stock Option Plan.

Long-Term Incentive Plan (LTIP Plan)

The principal purposes of the LTIP Plan is to secure for the Company and its Shareholders the benefits of incentive inherent in the share ownership by issuing stock options (“Options”), restricted share units (“RSUs”) and other securities to the employees (including part-time employees), directors or officers of the Company or any of its subsidiaries or affiliates, management company employees, consultants, and service providers (“Optionees”) who, in the judgment of the Board, will be largely responsible for its future growth and success. It is generally recognized that a stock option plan of the nature provided for in the LTIP Plan aids in retaining and encouraging persons of exceptional ability because of the opportunity offered them to acquire a proprietary interest in the Company.

The maximum number of Shares available at all times for issuance under the LTIP Plan or any other security based compensation arrangements (pre-existing or otherwise) shall not exceed 10% of the issued and outstanding Shares at the time of grant. Any increase in the number of issued and outstanding Shares will result in an increase in the number of Shares issuable under the LTIP Plan. The LTIP Plan is an “evergreen” plan and accordingly, any issuance of Shares from treasury, including issuances of Shares in respect of which Options are exercised and RSUs are converted, and any expired or cancelled Options and RSUs, shall automatically replenish the number of shares issuable under the LTIP Plan.

The exercise price per Share under an Option shall be determined by the Board, but, in any event, shall not be lower than the market price of the Shares on the date of grant of the Options, being the closing price of the Shares on the TSX (or if the Shares are not then listed on the TSX, on the principal stock exchange on which such Shares are traded, on the trading day of the Option grant)(the “Market Price”). In the event that the Shares are not then listed and posted for trading on a stock exchange, the Market Price shall be the fair market value of such Shares as determined by the Board in its sole discretion. The exercise price per Share under an Option shall be determined by the Board, but, in any event, shall not be lower than the market price of the Shares on the date of grant of the Options.

The period within which Options may be exercised, the vesting date and the number of Options which may be exercised in any such period are determined by the Board at the time of granting the Options provided, however, that the maximum term of any Options awarded under the LTIP Plan is ten (10) years from the date of the Option grant.

The period within which RSUs may be exercised, the vesting criteria and measurement date, and the number of RSUs which may be exercised in any such period are determined by the Board at the time of awarding the RSUs provided, however, that the maximum term of any RSUs awarded under the LTIP Plan is ten (10) years from the date of the RSU award.

In the event that the expiry of an Option or RSU falls within, or within two (2) days of, a trading blackout period imposed by Company, the expiry date shall be automatically extended to the tenth business day following the end of the blackout period.

An Optionee will have, in all cases subject to the original expiry date and any determination otherwise by the Board:

- In the event of retirement or resignation, a 12-month period to exercise his or her Options, which will automatically vest;
- In the event of the death or disability of an Optionee, a 12-month period to exercise his or her Options, which will automatically vest;
- In the event of termination without cause of an Optionee, the Optionee will have 12 months to exercise his or her Options which have vested, but any unvested Options will become void; and
- In the event of termination with cause, Options shall become void, except as may be set out in the Optionee’s Option commitment or as otherwise determined by the Board in its sole discretion.

In the event of a change of control, the vesting of all Options and the time for the fulfilment of any conditions or restrictions on such vesting shall be accelerated to a date or time immediately prior to the effective time of the change of control, and the Board, in its sole discretion, may authorize and implement any one or more of the following additional courses of action:

- Terminating without any payment or other consideration, any Options not exercised or surrendered by the effective time of the change of control;
- Causing the Company to offer to acquire from each Optionee his or her Options for a cash payment equal to the in-the-money amount, and any Options not so surrendered or exercised by the effective time of the change of control will be deemed to have expired; and
- An Option granted under the LTIP Plan be exchanged for an option to acquire, for the same exercise price, that number and type of securities as would be distributed to the Optionee in respect of the Shares issued to the Optionee had he or she exercised the Option prior to the effective time of the change of control, provided that any such replacement option must provide that it survives for a period of not less than one (1) year from the effective time of the change of control, regardless of the continuing directorship, officership or employment of the Optionee.

For great certainty, and notwithstanding anything else to the contrary contained in the LTIP Plan, the Board may, in its sole discretion, in any change of control which may or has occurred, make such arrangements as it deems appropriate for the exercise of issued and outstanding Options including, without limitation, the power to modify the terms of the LTIP Plan and/or the Options as contemplated above. If the Board exercises such power, the Options shall be deemed to have been amended to permit the exercise thereof in whole or in part by the Optionee at any time or from time to time as determined by the Board prior to or in conjunction with completion of the change of control.

The grant of Options and RSUs under the LTIP Plan is subject to a restriction such that the number of Shares: (i) issued to insiders of Company, within any one-year period, and (ii) issuable to insiders of Company, at any time, under the LTIP Plan, or when

combined with all of Company's other security based compensation arrangements, shall not exceed 10% of Company's total issued and outstanding Shares, respectively.

The Board may delegate, to the extent permitted by applicable law and by resolution of the Board, its powers under the LTIP Plan to the Governance Committee, or such other committee as the Board may determine from time to time, such committee consisting of no less than two (2) members.

Options and RSUs are not assignable or transferable other than by will or by the applicable laws of descent. During the lifetime of an Optionee, all Options and RSUs may only be exercised by the Optionee.

The amendment provisions of the LTIP Plan provide the Board with the power, subject to the requisite regulatory approval, to make the following amendments to the provisions of the LTIP Plan and any Option and RSU commitment without Shareholder approval (without limitation):

- Amendments of a housekeeping nature,
- Additions or changes to any vesting provisions of an Option or RSU,
- Changes to the termination provisions of an Option, RSU or the LTIP Plan which do not entail an extensions beyond the original expiry date,
- Addition of a cashless exercise feature, payable in cash or securities, whether or not providing for a full deduction of the number of underlying Shares from the LTIP Plan reserves, and
- Amendments to reflect changes to applicable securities or tax laws.

However, any of the following amendments require Shareholder approval:

- Reducing the exercise price of an Option, cancelling, and reissuing an Option, or cancelling an Option in order to issue an alternative entitlement,
- Amending the term of an Option to extend the term beyond its original expiry date,
- Materially increasing the benefits to the holder of Options who is an insider to the material detriment of Company and the Shareholders,
- Increasing the number of Shares or maximum percentage of Shares which may be issued pursuant to the LTIP Plan (other than by virtue of adjustments permitted under the LTIP Plan),
- Permitting Options to be transferred other than for normal estate settlement purposes,
- Removing or exceeding of the insider participation limits,
- Materially modifying the eligibility requirements for participation in the LTIP Plan, or
- Modifying the amending provisions of the LTIP Plan.
